

**\*\*\* TRAFFIC ADVISORY \*\*\***

**Resurfacing of I-77 Northbound from Huntersville to Cornelius To Begin**

**Charlotte, N.C. (April 18, 2018)** – On Saturday, April 21, crews will shift traffic into the median lanes on I-77 northbound between Exit 25 Sam Furr Road in Huntersville to the Westmoreland Road overpass at mile marker 27 in Cornelius as resurfacing of the general purpose lanes begins. Traffic shift operations will occur overnight from 10 p.m. to 9 a.m. Traffic will remain in the median lanes until the resurfacing work is completed.

Motorists are encouraged to pay attention when approaching the work zone, obey the posted speed limit and work zone signs, and allow extra time to reach their destinations safely.

We encourage people to sign up to receive lane closure and traffic advisory information, and the latest information on the project.

Once the project is complete, dedicated express lanes will run adjacent to the existing general purpose lanes. The number of general purpose lanes will remain the same as today. Drivers will have the choice of using the express lanes to avoid travel delays, the general purpose lanes or a combination of both. Vehicles with three or more occupants (including the driver) and equipped with a transponder may use the express lanes for free. The 26-mile project is scheduled to open before the end of 2018.
